

# Prickly Pear Sportsman's Association

## COVID-19 Gun Range Information

March 28, 2020

**RANGE IS OPEN** for members and payed guests. The range open status is subject to change if the US Forest Service closes the forest or if there is a change in the directive from Montana's Governor, Steve Bullock, affecting outdoor activity during the stay at home directive.

Observe social distancing protocols while on the range. Self-monitor the number of individuals shooting on any range to maintain social distance. Failure to maintain recommended distance could result in range closure.

The association will do what it can to make hand sanitizer available. Please use appropriately and help insure that the hand sanitizer stays in place.

Everyone needs to take precautions opening the lock and gate at the range entrance. The association will place a disinfectant for your use at the gate. This point of access is common to all. Do not let this be a point of exposure.
